

TAITA COLLEGE

L3 Biology

BIO301

Total Number of credits available in this course: **19 Level 3**
External and **10** Internal

9

In order to achieve either a Merit or Excellence endorsement in this course you need to achieve 14 credits including one internal AND one external at either Merit or Excellence level.

Please ensure that you come to each lesson prepared with writing materials, a folder to organise your notes and your course workbook which usually costs about \$30.

My expectation is that after every lesson you will revise your work done in class in order to maximise your learning. This could include reading over your work, making a set of flash cards with keywords from that lesson and their meanings or other techniques that work for you. As we have learned by now, if we know the terms and their meaning, we will do well in biology. Tutor time and study are a good time for this.

This course *is* endorsable

Standard	Title	Credits	Internal/ External	U.E. Lit	Assessment Date
AS91604	Demonstrate understanding of how an animal maintains a stable internal environment	3	Internal	Reading	3 rd March
AS61605	Demonstrate understanding of processes leading to speciation	4	Ext	Reading Writing	12 th May
AS91602	Integrate biological knowledge to develop an informed response to a socio-scientific issue	3	Int	Reading Writing	9 th June
AS91603	Demonstrate understanding of the responses of plants and animals to their external environment	5	Ext	Reading Writing	22 nd September
AS91153	Carry out a practical investigation in a biological context with guidance	4	Internal		22 nd September
